FAX: (970) 493-8588

CERTIFICATION

After finishing the Open Water Diver academic review and pool sessions, you're ready for certification as an Open Water Diver. You will demonstrate the skills you learned in the course during 4 open water dives.

You can complete your open water certification dives in the following ways:

- Join High Plains Scuba Center on one of our local dives in the summer or at The Crater in Utah during the colder months.
- Travel on an HPSC-sponsored trip to Cozumel, Bonaire, the Cayman Islands, or any other exotic destination. Trips are available throughout the year.
- Use a Universal Referral Form from HPSC to finish your dives on your next vacation. We can even send an instructor with you on vacation!

REQUIREMENTS

You must complete your certification dives within 6 months of your last academic review and pool session.

In addition, you must:

- Provide your own mask, snorkel, booties, and fins. Ensuring your equipment fits well will make you more comfortable, provide better safety, and make your dives more fun. Gloves are also required for colder water dives.
- Feel comfortable and ready. Additional pool time may be scheduled to increase your comfort level.

PIRATE SCUBA

Before you proceed to your Open Water Certification you have an opportunity to spend more time in the water with one of our dive leaders. The purpose of the Pirate Scuba session is to provide additional time in the water for your comfort and confidence under the supervision of a dive leader, but this is not a training session. This session occurs once a month on the 3rd Saturday of the month from 3:00 pm - 4:00 pm and the cost is \$20.00. Please be sure to call to schedule a time.

COURSE MATERIALS

Your class includes:

- Open water dives and instruction.
- Open Water Diver certification card.
- Equipment: BCD, regulator, tanks, weights, weight belt, and wetsuit as needed.
- Lodging and fees at The Crater.

Class does not include:

- Transportation. HPSC can help arrange car pools.
- Meals.
- Mask, snorkel, booties, fins, and gloves.

(Please ask store staff for current price guide.)

SYSTEM SENSE

Owning your own equipment will make you more comfortable and relaxed in the water. Receive significant savings on training when you purchase a scuba system. You can even apply what you have already spent on classes toward your new equipment!

AFTER COMPLETION

After completion of the Open Water Certification dives, your certification lasts a lifetime. Remember, though, to maintain proficiency and always dive within the limits of your comfort and ability. Continuing education is a great way to stay current, develop new skills and have fun! Check out night diving, deep diving, underwater photography, and more.

JR. OPEN WATER DIVER

Divers aged 10 - 14 receive Jr. Open Water Diver certifications. After certification, they may only dive with a certified adult diver, and some depth limits may apply.
